WORK EXPERIENCE

17.05.2022-1.10.2022

UIC Group

Frontend developer

I worked at UIC Group for more than 5 months and I figured out a lot of new things and gained much experience. I worked team was great and helpful and there are open-minded, talkative, friendly developers on almost every team. I had contributed some projects.

1. <https://uicgroup.us/> , was used these technologies : vue3 , pinia, typescript, tailwindcss , storybook;

2. <https://one-net.uz/> , was used these technologies : vue3 , pinia, typescript, tailwindcss, storybook;

3. <https://cyberpark.uz/> , was use vue2, tailwindcss, vuex

10.10.2022-29.11.2023

Algorithm Consulting Group

Frontend developer

The last company I worked for did ERP projects. ERP stands for Enterprise Resource Planning. ERP systems help businesses simplify and automate their operations, making them more efficient and effective. I worked as a frontend developer in this company. The following technologies are used: HTML5, Bootstrap4, Css, Javascript, JQuery, Chart.js. During 1 year of work, I completed 3 large projects from start to finish

05.01.2024

Online Service Group

Frontend developer

I had contributed some projects.

1. <https://parliament.gov.uz/> , was used these technologies : nuxt js, vuex,
